

ALBERTA'S HUNTING LICENCE SYSTEM

The Facts

1. Alberta's automated licensing system is one of the best in North America. Hunting and fishing licences are offered 365 days a year on a 24-hour basis and in 2008 Alberta's licence system became available online. Ongoing development of the web licensing system is underway, with Alberta Sustainable Resource Development launching hunting licences in a series of releases. The first release of hunting products will include non - tag items such as wildlife certificates and game bird licenses. For hunting licenses with harvest tags there is ongoing work required to develop a solution that will meet Enforcement requirements. Over 360 license issuers in 173 communities across Alberta sell hunting and fishing licenses.
2. The system is designed to serve multiple users:
 - The hunter who wants speed, accuracy and availability to purchase licenses.
 - The license issuer who wants to sell licenses accurately and efficiently.
 - The Fish & Wildlife Officer who needs to ensure compliance with laws and regulations.
 - The Wildlife Manager who wants more effective management information.
3. Over 100 hunting and fishing licenses are available for purchase online or at all license issuers. Alberta has one of the most diverse numbers of game species in Canada.
4. In 2010, over 278,000 Draw applications were processed in the June hunting draw compared to 263,000 applications in 2009, an increase of over 15,000 applications. Applications were distributed between the web, issuer point-of-sale (POS) locations and the 1-900 phone service.
5. The automated paper-licensing system is more accurate and provides more information to the hunter, license issuer, Fish and Wildlife Officer, Conservation Officers and wildlife managers than the manual system. The paper hunting tags are less costly to produce than the old metal tags.
6. **TIPS FOR SUCCESS:**
 - a. **Be Prepared:** Information is available to help you. Read and understand the *Alberta Guide to Hunting Regulations* and the *Alberta Hunting Draws* booklet. Obtain further information from your local Alberta Fish and Wildlife office or visit the My Wild Alberta Website, www.mywildalberta.com.
 - b. **Bring your WIN card with you when purchasing licenses.** The WIN card allows the license issuer to "swipe" much of your application information from the card, which increases speed and accuracy. Over 10% of hunters and anglers do not bring their WIN cards when they purchase licenses. This creates delays for the license issuer and for other customers who are waiting to purchase their licenses.
 - c. **Know the specific license products you want to purchase.** You may need to refer to the *Alberta Hunting Draws* booklet or the *Alberta Guide to Hunting Regulations* when purchasing special licenses.
7. Purchase your products from knowledgeable license issuers or online, and be knowledgeable about what specific products you want.

FACT SHEET #5

8. Review your license and tags carefully before you exit the Internet licensing system or before you leave the license issuer to ensure that the information is correct. The license and tags specifically identify the WIN number, the species, the WMU and special conditions associated with the license.
9. Remember to carry your hunting licenses and tags when hunting.
10. A new website is available to WIN card holders. Visit the My Wild Alberta Website — www.mywildalberta.com, then click the Alberta RELM site — www.albertarelm.com. Login to view your licenses for the last 5 years, special draw priorities, special draw applications, and confirm that your address and phone number are correct.

WHAT THE SYSTEM TELLS US:

- There are approximately **113,000 licensed hunters** in Alberta annually.
- The total number of **hunting licenses sold in 2008 was 420,000**.
- The number of **youth hunters increased by 9.1%** from the previous year to 6,798.
- **Female hunter numbers have increased annually** and in 2008 represented 6.5% of the Alberta hunting population.
- The **Moose partner licenses* have proven to be popular with hunters:**

Year	2008	2007	2006	2005	2004	2003	2002	2001	2000
Licenses Issued	885	938	806	883	1067	1084	962	909	319

* This license was introduced as a pilot in 2000 and therefore the availability of these licenses was restricted to resident hunters and certain WMUs.

- The **average age of an Alberta male hunter is 40 years** and **44 years for the average Alberta female hunter**.
- The use of partner licenses has been expanded to allow further opportunities for youth under the age of 18, and for various species.
